

# NEW VOICES 2018

## AUDITIONS CALL

**Production:** *The Third Force* by Nicola Moerman

**Director:** Rafiek Mammon

**Language:** English

**Synopsis:**

*If we look in between the cracks of the words we speak, what does reality look like? What happens within a person's mind whilst experiencing the many pressures and burdens of everyday life? "The Third Force" is a creative and artistic depiction of life and its many complexities and repercussions – who wields power and over whom, and why? And, correlations begin to surface between experiencing anxiety, panic attacks and experiencing life. Is it really that different for those who think they "have it all together"? Using various theatrical devices, "The Third Force" cleverly explores the actual experiences of those who suffer from anxiety attacks, those who look on and the social shunning; ultimately aiming at giving a voice to those who struggle to express how they really feel in a world that clearly favours extroverts and alpha personalities.*
